Large Capacity Ovens & Incubators

Swallow 750 Incubator model shown

Swallow large capacity ovens and incubators offer precise control and are designed to meet the ever increasing demands of the modern laboratory and process facility.

- Using the latest in microprocessor technology these products are simple to operate and are controlled by means of a microprocessor system, offering precise temperature control, fast heat-up times and almost undetectable overshoot.
- The process timers and delayed start timers are each programmable from 1 minute to 99 hours 59 minutes.
- All models allow up to 3 time/temperature profiles to be programmed within one cycle.
- An RS232 communication port can be added to transfer information to an intelligent receiver.
- Swallow ovens and incubators meet fully with the requirements of IEC 1010-2-010 Class 2.

KEY FEATURES
